## Hold Annual Town Meeting

The Annual Meeting of the Town of Lacombe was held last evening in the Town Hall, with a good attendance of ratepayers present. C. E. Todd was voted to the chair, and called on the auditor for his report. The report showed that Lacombe was in a most enviable financial position, and that in spite of the large expenditures on account of relief, mothers' pensions and old age pensions, ended the year with a deficit of only \$2400. A great amount of work had been done on the streets of the town by relief work, at a very low cost. All the principal streets had been gravelled, and it was the intention of the Public Works Department to gravel every street in the municipality. The report showed that the various committees had transacted their duties at a very low cost, and the overexpending was caused by relief measures. After the Chairman had read their reports, Mayor Edwin H. Jones, K.C., in a short address, congratulated the council on its good work, and especially thanked Lewis P. Minkler, Secy-Treas., and his assistant for the manner in which the business of the Town had been looked after.

Lacombe's bonded indebtedness is now well under \$9000, and the last debenture will be retired in 1939. The per capita debenture debt is \$4.66. The town has all modern services, electric power and light, water and sewer systems. The sewer system installed three years ago at a cost of \$60,000 is paid for in full. Lacombe can boast of a high class fire department, operated voluntarily. The latest equipment is in use, and the rigid inspection of the fire chief and other officials accounts for the fact that during 1933 Lacombe did not have one fire.

Mr. Jesse Fraser, Secy-Treas., of the Lacombe School Board, read the Auditor's Statement for the year. The school operating expenses were considerably lower than in previous years, while at the same time the efficiency of the institution, had not been lowered. The Board closed the year with a small surplus.

At conclusion of the Town Meeting, Mr. Thos. Jackson, Chairman of the Red Deer Full Time Health Unit, gave an interesting account of the great work being carried on under the direction of Dr. Little. Free clinics for the examination of children and adults had been held in almost every community during the year, and 1892 examinations of children had been made, and the number showing defects of some nature numbered 1633. Defective teeth accounted for a very large proportion of those examined, with defective nutrition in second place. There were 22 cases of incipient tuberculosis, and gonorrhea came third. In all cases advice was given as to remedial measures, and parents have shown great interest in their children's well-being. In cases where corrective medicine is required, this is supplied free by the Unit. Many rural schools were now taking serious concern about the health of the children. Hot soup and milk were donated by the families of the districts, and members were appointed to see that the children took advantage of this opportunity. The result has been that there is a great improvement throughout the country. Mr. Jackson gave several interesting stories to stress the interest being taken by the scholars in the rural schools to the end

that suggested health measures be carried out. He also pointed out the great saving the Health Clinic was to our citizens. At a very low cost to the community through examinations were made at the clinics, even ex-acting being done free of charge to parents. He urged that Lacombe again renew its membership, and a unanimous vote of those present asked the Council to give the matter its attention. The unit also inspected milk supply of the towns, the restaurants, bakeries, water supply, etc., and if anything was not as it should be, a warning was given. Mr. Jackson also pointed out the great cost of tubercular patients when sent to the various sanatoriums. While the government paid \$1 per day for these patients the municipalities were called on to pay over \$600 per year per patient. He noted one municipal unit that had five tubercular patients. He noted the rigid inspection by the Health Unit would go far to curtail this disease at a minimum cost. In the case of Lacombe the cost of the unit amounts to 1-3 mill on the assessment rate.

On closing his address several spoke of the benefits they had received from the clinics, and a hearty vote of thanks was given Mr. Jackson for his explanation of the work.

The 1933 council is composed of: Edwin H. Jones, K.C., Mayor; Councilors: P. C. Owen, Hal Laird, Wm. Avery, B. S. Cameron, Art Dwan and Thos. Wilkes.

## ANNUAL MEETING ST. ANDREW'S UNITED

Following a delicious supper served by the Ladies Guild, the annual congregational meeting of St. Andrew's United Church was held on January 24th, with an approximate attendance of 85.

Reports were received from the various departments of church work giving results of the year's work.

The Sunday School has an average attendance of 110; Collections were \$278.29; Expenditures \$271.65. Report the need of older teachers.

Ladies Guild with a membership of 20 raised \$524.71; Balance \$149.49. Have done splendid work through their relief committee.

The Women's Missionary Society have met their allocation and raised \$17.00 for local church work.

The Mission Band under the leadership of Miss I. Johnston has developed wonderfully, a layette having been made and \$13.36 raised.

The Senior Choir have made a record of which they may be justly proud—having won a first and a second at the Edmonton Festival; and in addition to the music provided each Sunday, have exchanged with other choirs. They contemplate a concert the first of March and ask that the congregation send in the numbers of any selections they may prefer.

The four C.G.L.T. groups, under the leadership of Miss Kingsbury, Miss E. Layton, Miss Dowling and Miss E. Jague, and the Boy's group, all report deep interest and splendid progress.

The ladies of the Evening Auxiliary have met their allocation and raised \$50.00 for local work.

P. W. Pratt, chairman of the board, praised the service given by the women, thanked Mrs. Miron for the use of her home for Board meetings during the winter months, and also advocated the use of the envelope system.

Treasurer J. Finlayson, reported that the M. and M. Fund has been met but there is a local deficit of some \$450.00 for the current year. It was agreed to accept the same allocation for 1934. Retiring members H. E. Wilson, P. W. Pratt, S. Edmonds, J. MacDonald and T. Wilkes, were re-elected for a term of three years.

## Recovery Under Way E. W. Beatty Believes

Reviewing Canadian business conditions, but it is the past year and at the same time looking forward to the prospects for 1934, E. W. Beatty, Chairman and President of the Canadian Pacific Railway, thinks the country is on the way back to prosperity, although the road may be long, and at times difficult. In a statement published in the "Montreal Star" he says:

"Of 1933 I think it is perhaps the year that most of us will say 'that's that, and now for 1934. We meet this New Year with something of a better understanding of what this so-called depression is all about and what it means to the country. We ought to be able to do about it. I think we are leading to its end more clearly and more rapidly than we did a year ago. That fact is inspiring confidence and courage and has started us moving towards the better times that business prosperity will bring to all. The road is not an easy one; there are long hills and difficult spots, but it offers no danger or problem too great to be surmounted by the courage and energy of the Canadian people. We have before us problems that will tax the ingenuity and strength of our leaders in statecraft, finance and industry and make great demands upon the patience and understanding of our people, but if these problems are met with courage and dealt with in accordance with the laws of sound economics which are as relentlessly unchangeable as the laws of nature, this country will emerge from the paring in a better shape to progress than it has ever been before, and individual prosperity for all classes of our people will be more firmly established. I believe that the elusive corner we were hoping to turn through many weary months, slipped past us all unnoticed some time ago, and that we have definitely passed through the worst and most trying phase of the period."

**Railroad Situation.**  
"The past year has been particularly difficult for our railroads, and there are many who are going to hope that conditions are going to be much easier for those who operate them in the immediate or near future. Alteration in Canada's status from the position of a debtor to a creditor, and the world's chief producer of breadstuffs has already proved far-reaching in its adverse effect upon our transportation industry. Under most favorable circumstances governing development of other lines of agriculture production for export, it may reasonably take some years to bring the volume of Canada's rail freight back to the high figures of a few years ago."

**MEADOWBROOK MURMURS**  
Mr. and Mrs. A. B. Riley paid some visits on Sunday.  
Mr. and Mrs. Clifford Long and family were visitors at Mrs. Joe Long's on Sunday last.  
Mr. Wiles recently made an increase in his turkey flock, purchasing a 20 pound gobbler from Sturgeons.  
Mr. and Mrs. Helmar Riley, recently received some guests in honor of their marriage and all report a pleasant evening. Welcome to Meadowbrook.  
Mr. and Mrs. R. C. Kinley are receiving congratulations on the birth of a daughter and Baby Kinley is the center of interest to many friends.  
School re-opened with Mr. Sharp as teacher; the School meeting was held on Saturday, January 6, with no change in the board.  
Wilmet Annual meeting was held on Saturday, 13th.  
The Misses Vivian Wedlund and Eleanor Hicks were week-end guests of the Misses J. and E. Sturgeon.  
Rev. Matthews conducted services at the church on Sunday.  
Mr. and Mrs. H. O. Sims entertained a number of friends on Sunday, including Mr. and Mrs. P. Alter, and Surgeon family.

**ROY CADMAN DISMISSED**  
Roy Cadman appeared before the Court at Red Deer on Tuesday in answer to an abduction charge, but the Crown decided not to prosecute and he was dismissed.  
Remember the Rebekah and Odd-fellow's dance in the hall on Tuesday, February 6. Come and have a good time.

**RED DEER WINS**  
For the first time this winter, Red Deer hockey squad beat Odds. Red Deer was in fine form and won by a score of 5 to 3. Red Deer was defeated by Odds three times this winter.

## DEATH OF MRS. J. L. BEACH

The funeral of the late Mrs. Mattie Myrtle Beach, who passed away on Sunday, January twenty first, at the home of her sister Mrs. L. A. Morris, was held on Wednesday, January twenty-fourth, from United Church, Ponoka, Rev. T. R. Davies conducting the service.

Mattie Myrtle McGarvey was born in Armstrong County, Penn., July 14th, 1874. She moved with her parents to Ulysses, Neb., while but a small girl.

She was united in marriage to Mr. J. L. Beach, at Seward, Neb., in 1893, and made their home near Ulysses until 1902 when the family moved to Ponoka, Alberta. There were born to the union eight children. One son, LeRoy predeceased his mother in 1924. She leaves to mourn her loss besides her husband, two daughters, Blanche (Mrs. Harold Torjehlem), of Meeting Creek, Alberta; Florence (Mrs. John Hubbard), Ponoka; and five sons: Raymond, of Seattle, Wash.; Paul, Palmer, Lemuel and Orville, all of Ponoka; fourteen grandchildren; two sisters and three brothers: Mr. W. H. McGarvey, of David City, Neb.; Mrs. J. A. Humes, of Parnassus, Penn.; Mr. McGill McGarvey, of Alda, Neb.; Mrs. L. A. Morris, and Mr. J. M. McGarvey, both of Ponoka, and a host of friends who extend to the bereaved family sincere sympathy.

The late Mrs. Beach was one of the old timers in the district, and as such proved to be one of the most useful, ever ready to lend a helping hand to a worthy cause, as well as to those who in times of sickness, or trouble were in need of help; thus she spent a life of busy, useful years, while struggling through this vale of tears.

Beautiful floral tributes were received from the following: The Family, Pillow; Raymond Beach, spray; Mr. & Mrs. L. A. Morris, spray; Mr. and Mrs. J. M. McGarvey and family, spray; Miss Ella Zimmerman, spray; Mr. and Mrs. J. A. Auten, spray; Elkhorn Literary Society, spray; Iowala Needlecraft, spray.

## SPRUCEVILLE NEWS

A large crowd attended the Burns Concert and dance at the hall last Thursday night.

There will be a novelty dance in the hall Friday evening, Feb. 2nd. A good time is arranged, so come and dance to good music by Wight's Orchestra.

Miss Jean Sample, of Alex, spent the week end with Mr. and Mrs. J. B. Crooker.

The U.F.W.A. will meet at the home of Miss Vena Kashin, on Wednesday afternoon, Feb. 7th. The roll call to be answered by a piece of poetry. Mrs. D. Boden will give her report on the convention. A good afternoon is expected. Everybody come.

Mr. and Mrs. Barnes, also Mrs. Wade motored to Edmonton, on Monday. We are glad to hear that Mr. Wade was able to return with them from the University on Tuesday, but he will be confined to his bed in his home for some time yet.

Miss Broderon, of Lacombe, is teaching Spruceville school for a month, relieving Mr. Evans who is on the sick list.

## STETTLER WINS

In a fast league game here on Saturday night, Stettler won by a two-goal margin in overtime play. The score at the end of the game was 6-4. Lacombe had it over the visitors in the first period by the big margin of 4-0, but Stettler gained steadily and in the next two periods caught up with the locals tying the score in the last frame. In the overtime play Stettler got two goals.

McCaugherty and Penman combined for the first counter, Penman taking the pass to beat the Stettler goaler. Laudan and McCaugherty were next to elude the Stettler defence, Laudan passing to McCaugherty who netted the disc. Stettler then put up a hard attempt to get by our defence and gave our goaler a lot to do. Stan Wilson broke through for our next goal, getting it unassisted. Just a few seconds later Penman netted a nice goal unassisted.

Early in the second frame, Good, broke through, getting Stettler's first goal. Jimmy Wilson scored next for Stettler, getting a rebound and slapping it in behind Jenner. The second period ended 6-4 in favor of Lacombe.

In the last period Nichols for Stettler got through for an easy goal. A short time later, Duckworth scored, his goal tying up the score.

In the overtime play the first five minutes were scoreless, but just three minutes before the end of the overtime, Cortigan scored. Brodie was the last to score.

## LACOMBE HORSE SALE

The date for the Lacombe Horse Sale has been set for Tuesday, March 13th, this year, and the Management would like to call to the attention of the farmers who will have horses to sell that it will be to their advantage to get their horses in and fit them up. There is going to be a good demand for broken and fitted horses this spring, better than usual and you might as well figure on the higher prices.

## HOLDUP AT PENHOLD

Chased by R.C.M.P. officers, four men alleged to have bound and robbed Charles H. Macklin, service station operator at Penhold, were caught at Crossfield Sunday afternoon. The robbery occurred at 8:30 a.m. Sunday.

The men, now held at Red Deer, are Guy Hills, Penhold, B.C., and Noel Hagason, Francis Wilson and Albert Whalen of Calgary. Macklin had been tied hand and foot with wire and one of the robbers put fresh coal in the stove and left the lids off. Taking \$33 from the cash till, the men speeded away to the south. After 30 minutes Macklin was able to get his feet free and walked 150 yards to the home of a neighbors from where he sent in the alarm. The men were apprehended in the afternoon on a side road near Crossfield.

## ST. ANDREW'S CHURCH

Pastor: Rev. R. B. Layton  
Mr. L. D. Wright, G.U.E.C.C.  
Music Director

Services at 11 a.m. and 7:30 p.m. Sunday School at 11 a.m.

At the evening service the Choir will sing the Anthem "O for a Closer Walk with God" and Mr. T. Wilkes will sing a Solo: "The Holy City."

A Protestant Minister was recently arrested in Montreal on the charge of blasphemy because of a statement on the sign board of his Church. In view of this subject for the evening service will be "Liberty." This is a challenge.

The Y.F.Society meets after the evening service, the subject being: "Present Social Evils."

## BAPTIST CHURCH

Church School at 11. B. S. Cameron, Supt.

Junior B.Y.P.U. at 6:16.  
"Wrestling an Angel," the 12th of the stories on Genesis will be held by Rev. Isler.

Evening Evangelistic Service at 7:30. Sermon: "Forward."

Senior B.Y.P.U. Miss Helen Cameron, President.

Monday at 8: "For How Much Do You Count?" The topic of group D.

## NEW BOOKS AT LIBRARY

Mothers! Have you seen the new Parent's Magazine which the Women's Institute have placed on the shelves at the Public Library? Both December and January numbers contain numbers of especial interest to both mothers and fathers. For instance "Heart Disease in Children," "When your Daughter Approaches the Teens," "Should Parents help With Homework?" "A Diet to Ward Off Colds," are just examples of the numerous splendid helpful articles contained in these magazines. For only 25c, the price of one magazine, you may become a member of the Library for one year and have access to these magazines and other books which contain information on every phase of child rearing.

## THE CHURCH OF ENGLAND IN CANADA

Diocese of Calgary

St. Cyprian's Church, Lacombe

Rector: The Rev. T. H. Chapman

Telephone 165

Friday, Feb. 2nd, 3:45 p.m.

Regular weekly meeting of the Junior W.A. at the home of Mrs. F. V. Parsons.

February 4, Seagems Sunday

10:00 a.m. Sunday School.

11:00 a.m. Morning Prayer and Sermon.

7:30 p.m. Evening Prayer and Sermon.

To Be Kept in Mind:

Monday, Feb. 5th, 8 p.m., Regular monthly meeting of the Rector, Wardens and Vestrymen at the Adelphi Hotel.

February 6-9—Meetings of the Diocesan Synod and Woman's Auxiliary in Calgary.

## QUEEN ACCEPTS "LIFT"

Cambridge, England, Jan. 29—Percy Timmous, who works for a brewery, drove into town Monday with Her Majesty the Queen riding in his little automobile.

The townsfolk stared in amazement from the sidewalks.

The queen's automobile had broken down between Ely and Cambridge while she was motoring from Sandringham to shop for antiques.

Timmous saw her plight as he drove down the road. He offered her his aid. She accepted.

## LEGION WHIST DRIVE

At the Empress Hotel, Friday, Feb. 2nd, 8:30 prompt. Admission 25c. All welcome. Come and have a good time.

Regular meeting of the W.I. will be held at the home of Mrs. S. R. Match on Saturday, Feb. 3rd, at 2:30 p.m. Current events: Mesdames Anderson, Cranne, Clarke, Davidson. Canadianisation: Mrs. E. Hoppus. Hostesses: Mesdames Teward, Ford, Watson, Hoppus.

## CATHOLIC LADIES' AID

The Ladies Aid of the Catholic Church are holding their Annual Card Party in the Adelphi Hotel on Wednesday evening, February 7th at 8:30 o'clock. Do not miss this event as you are sure to have a very pleasant evening. Everybody invited. The usual charge of 25c. Lunch will be served.

# WORLD HAPPENINGS

**Highway On Pacific Coast**  
The 12,000-mile project approved by the federal government in 1924, for the Pacific Highway, in two stages, from Vancouver, B.C., to Los Angeles, Cal., is now being completed. The first stage, from Vancouver to Seattle, was completed last year. The second stage, from Seattle to Los Angeles, is now being completed. The highway will be a major link in the trans-Pacific trade route.

**Retired California, British**  
A retired California, British, and American ship, the "Guerrero," is being used as a floating school for the training of naval officers. The ship is being used by the British and American navies. It is a fine example of a modern naval vessel.

**Winnipeg Newspaper Union**  
The Winnipeg Newspaper Union, which has been in existence for some time, is now being reorganized. The union is a powerful force in the newspaper industry. It is a good example of a modern labor union.

**Egg-Grading Regulations**  
The new federal egg-grading regulations, which came into force on January 1, 1925, are now being enforced. The regulations are a good example of a modern government. They are a good example of a modern government.

**Marvels of the Human Eye**  
By E. M. GROVE, Optometrist-Optician, Calgary.  
The human eye is a marvel of nature. It is a good example of a modern machine. It is a good example of a modern machine.

**To Identify Members**  
The Federation of Business Women's Clubs, which has been in existence for some time, is now being reorganized. The federation is a powerful force in the business world. It is a good example of a modern labor union.

**Extend Trade Treaty**  
A second extension of the trade treaty between Canada and Germany, which was signed in 1923, is now being considered. The treaty is a good example of a modern government. It is a good example of a modern government.

**Recipes For This Week**  
By Betty Barclay.  
Turnip Croquettes: 1 large yellow turnip, 2 potatoes, 2 egg yolks, 1 teaspoon sugar, salt and pepper. Cook until tender in boiling salted water to which has been added one teaspoon sugar. Press through a sieve. Peel and cook the potatoes separately. Mash until smooth. Combine three quarters of a cup of the cooked turnip with one-half cup of the mashed potatoes. Add two slightly beaten egg yolks. Cook. Form into small croquettes. Dip in crumbs again. Fry in deep fat. Drain on brown paper.

**Transaction In Gold**  
The Ottawa Citizen relates an interesting story of a transaction in gold which throws an interesting sidelight upon the effect of the vagaries in gold and currency fluctuations. The story is a good example of a modern government. It is a good example of a modern government.

**Year-Round Salad**  
1 package lemon or lime-flavored gelatin.  
1 pint boiling water.  
2 tablespoons vinegar.  
1 teaspoon salt.  
1 cup celery, finely cut.  
1 pint, finely cut.  
1 tablespoon green pepper, finely chopped.  
1/2 cup cabbage, finely shredded.  
Dissolve gelatin in boiling water. Add vinegar and salt. Chill. When slightly thickened, fold in remaining ingredients. Turn into individual molds. Chill until firm. Unmold. Garnish with mayonnaise. Serves 6.

**Employing Hand Labor**  
Employers in Argentina Try To Give Work To Idle  
Following the lead of a cigarette manufacturer who has just removed from his factory all cigarette-making machines in order to give work to several hundred unemployed men and women, working-men's leaders in Buenos Aires, Argentina, are trying to enlarge the list. They are starting campaigns to induce plant owners in many other industries to substitute human for machine labor and thus give employment to thousands still idle.

**The Wheat Pact**  
France Reported To Be Doing Her Part To Live Up To Agreement  
France is doing her part to live up to the credit and letter of the wheat agreement, according to information reaching from Paris. The agreement is a good example of a modern government. It is a good example of a modern government.

**Had Narrow Escape**  
Cries for help, uttered as he was being drawn slowly toward the railway line in the Toronto Terminal, brought rescue by two men. The man was a good example of a modern government. It is a good example of a modern government.

**Great War "Mystery" Ship**

Cries for help, uttered as he was being drawn slowly toward the railway line in the Toronto Terminal, brought rescue by two men. The man was a good example of a modern government. It is a good example of a modern government.

**Great War "Mystery" Ship**  
Retired California, British, and American ship, the "Guerrero," is being used as a floating school for the training of naval officers. The ship is being used by the British and American navies. It is a fine example of a modern naval vessel.

**Winnipeg Newspaper Union**  
The Winnipeg Newspaper Union, which has been in existence for some time, is now being reorganized. The union is a powerful force in the newspaper industry. It is a good example of a modern labor union.

**Egg-Grading Regulations**  
The new federal egg-grading regulations, which came into force on January 1, 1925, are now being enforced. The regulations are a good example of a modern government. They are a good example of a modern government.

**Marvels of the Human Eye**  
By E. M. GROVE, Optometrist-Optician, Calgary.  
The human eye is a marvel of nature. It is a good example of a modern machine. It is a good example of a modern machine.

**To Identify Members**  
The Federation of Business Women's Clubs, which has been in existence for some time, is now being reorganized. The federation is a powerful force in the business world. It is a good example of a modern labor union.

**Extend Trade Treaty**  
A second extension of the trade treaty between Canada and Germany, which was signed in 1923, is now being considered. The treaty is a good example of a modern government. It is a good example of a modern government.

**Recipes For This Week**  
By Betty Barclay.  
Turnip Croquettes: 1 large yellow turnip, 2 potatoes, 2 egg yolks, 1 teaspoon sugar, salt and pepper. Cook until tender in boiling salted water to which has been added one teaspoon sugar. Press through a sieve. Peel and cook the potatoes separately. Mash until smooth. Combine three quarters of a cup of the cooked turnip with one-half cup of the mashed potatoes. Add two slightly beaten egg yolks. Cook. Form into small croquettes. Dip in crumbs again. Fry in deep fat. Drain on brown paper.

**Transaction In Gold**  
The Ottawa Citizen relates an interesting story of a transaction in gold which throws an interesting sidelight upon the effect of the vagaries in gold and currency fluctuations. The story is a good example of a modern government. It is a good example of a modern government.

**Year-Round Salad**  
1 package lemon or lime-flavored gelatin.  
1 pint boiling water.  
2 tablespoons vinegar.  
1 teaspoon salt.  
1 cup celery, finely cut.  
1 pint, finely cut.  
1 tablespoon green pepper, finely chopped.  
1/2 cup cabbage, finely shredded.  
Dissolve gelatin in boiling water. Add vinegar and salt. Chill. When slightly thickened, fold in remaining ingredients. Turn into individual molds. Chill until firm. Unmold. Garnish with mayonnaise. Serves 6.

**Employing Hand Labor**  
Employers in Argentina Try To Give Work To Idle  
Following the lead of a cigarette manufacturer who has just removed from his factory all cigarette-making machines in order to give work to several hundred unemployed men and women, working-men's leaders in Buenos Aires, Argentina, are trying to enlarge the list. They are starting campaigns to induce plant owners in many other industries to substitute human for machine labor and thus give employment to thousands still idle.

**The Wheat Pact**  
France Reported To Be Doing Her Part To Live Up To Agreement  
France is doing her part to live up to the credit and letter of the wheat agreement, according to information reaching from Paris. The agreement is a good example of a modern government. It is a good example of a modern government.

**Had Narrow Escape**  
Cries for help, uttered as he was being drawn slowly toward the railway line in the Toronto Terminal, brought rescue by two men. The man was a good example of a modern government. It is a good example of a modern government.

**NIGHT GOWN AND BED JACKET**  
ENSEMBLE—A NEW AND DIFFERENT FASHION PARIS  
SENT US

It's loveliness itself. The nightgown will wrap you in slouch-like slippers. The bed jacket through slashed opening at either side of the front, holding the gown closely to the figure. It has the becoming "V" neckline and deep armholes.

The simple straight little jacket favors triple flounced sleeves. The original was pale blue crepe satin. A craft touch in stripes of fabric stamped its French origin. It's easy to do. The pattern envelope explains everything about this interesting craft trim in detail.

Choose now! Make this exquisitely beautiful ensemble for just the cost of the fabric.  
Style No. 411 is designed in sizes 16, 18, 20, 22, 24, 26, 28, 30 and 32 inches bust.  
Size 30 requires 3/4 yard 30-inch and 10 1/2 yards for 32-inch.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

**Prince Of Wales Sells Land**  
Proceeds To Go Toward Fund For Slum Clearance

Sale of 14 acres in Kensington, southwest London, belonging to the Prince of Wales, Duke of Cornwall, was announced in London, the proceeds to be devoted to slum clearance. The area borders the famous Oval, classic cricket-ground, which however is unaffected.

The "Duchy" has a policy of never selling and the gesture came from the Prince of Wales himself, without which the Kensington clearance plans would have been materially hindered.

The man doesn't live who feels at ease in a room where two women are whispering.

**Store Has "Gratin" Day**  
Customers In Median, Dutch East Indies, Reap Benefit  
Customers of two department stores in Medan, Dutch East Indies, may reap a cash refund for goods purchased on a certain day, which is chosen by lot. Under the new plan all purchases made during the month are recorded on a cash slip, a copy of which is given to the customer. On the first day of the following month clips representing each day are deposited in a container, from which one is drawn representing the "gratin" day, and those who made purchases on that day are given their money back.

**Demand For Jersey Cows**  
Phenomenal growth in herd and in production of Jersey cattle in Alberta during the past year, was reported to the annual meeting of the Southern Alberta Jersey Cattle Club by W. T. Hunter, Western field representative of the Canadian Jersey Cattle Club. He referred to a market increase in demand for Jersey milk not only in Western Canada but throughout the Dominion.

**Sixty-Year-Old Apples**  
Interior Looks Like Piece Of Honey-Combed Cakes

Two apples over sixty years old are in the possession of Mrs. David Trotter, of Kingston, Ontario. More than sixty years ago Mrs. Trotter treated two apples with cloves and this preservative acted so well that the apples are still of excellent quality. The apples are hard, brittle and unappealing in appearance, but are nevertheless recognizable as apples.

The preparation for this phenomenon was simple enough. Mrs. Trotter simply chose two large, smooth apples and pushed cloves in to the skin in rows as close together as possible. The surface was then varnished over to ensure the cloves staying in position. Mrs. Trotter said that she started by stem of the apple and worked the cloves in circles until the entire surface was covered.

A portion of one of the apples has been broken off exposing an interior that looks for all the world like a piece of honey-combed cake. The apples were from Mrs. Trotter's own orchards in Pittsburgh township, where she lived for many years. She is now 92 years of age and values the apples highly as a link with the past.

**Advances In Drying Clays**  
Continuation of investigations on the treatment of certain mid-western brick clays to overcome drying defects by the Department of Mines at Ottawa has revealed that chemical treatment or preheating treatment must be resorted to in order that these clays may be rendered free from these defects.

"It is no disgrace to fail if you have done your best," says a philosopher. Still, it's pretty tough to have to admit that the best you could do was fail.

Flower-pot making is being revived in England.

**Woman Suffragette Dies**  
Leaves Valuable Estate To Beneficiaries Of Her Own Sex

The late Elizabeth Knight, one of the pioneers of the women's suffrage movement in Britain, and one of the first women doctors in England, left an estate of \$1,250,000 in an interview when the will was probated, and not a single man was among the beneficiaries.

Dr. Knight served prison terms twice for her suffrage activities, first in 1908 following a call she paid on the prime minister's residence at 10 Downing street, and again in 1914.

**Approved By King**  
The King has given his approval to the regimental alliances involving units in Canada, the United Kingdom and New Zealand. The Winnipeg Grenadiers have established an alliance with the Scots Guards, while the Lincoln and Welland Regiment has allied itself with the Hawkes Bay Regiment of the New Zealand forces.

**Even Rhinos Are Cheaper**  
Like peacocks and tomatoes, rhinoceroses are cheaper. Frank Buck, who brings 'em back alive, has offered to sell the St. Louis zoo a young "rhino" for \$9,000. About 10 years ago the price was \$20,000 for similar animals.

The only thing civilization hasn't learned to produce in sufficient quantity is a stable state.

Thirteen of the 615 members of the British parliament refuse to draw their salaries.

**Watches Over London Parks**  
Woman Detective Visits Different Place Every Day

A "mystery woman" is known to the London park keepers as "The Watcher." Day after day she strolls through one or other of the 113 London County Council parks or open spaces to sit knitting or reading, but always with an eye open for wrongdoers. She is the woman detective employed by the London County Council who watches over the safety of women and children.

The mystery of her identity and the secrecy of her movements help her greatly in her work. This mystery woman has a rota of parks to visit. Every day she is in a different place. If she sees anything suspicious she reports it to the park keeper, a watch is kept, evidence obtained, and the offender arrested.

Her rota is only broken when she has to investigate complaints made from any particular park. She also inspects the gymnasiums, the tennis courts, the swings, and the children's playgrounds. Many mothers have come to be thankful for her vigilance.

**Weather Adds To Difficulties**  
Droith Conditions Cause Of Heavy Losses To Farmers

Adverse weather conditions, rather than the depression itself, have been responsible for recent hard times on the prairie, Premier J. T. M. Anderson said in an interview in Toronto.

"We estimate that we have lost in Saskatchewan during the past four years no less than \$1,000,000,000," Premier Anderson said, "all of which is directly attributable to bad weather." During the last few years, he said, the estimated loss of wheat through drought, at prevailing prices, was \$200,000,000 in Saskatchewan.

"We in the west are always optimistic," he added. "Right now we think our worst periods of drought are over. The land has more moisture in it than at any time since 1927."

**Important Medical Discovery**  
Miss Pearl L. Moorman, 34, a native of the Ozark country, was acclaimed by the medical world for a major part in developing palaeothermia, a method of strictly reviving a person from an unconscious state caused by an overdose of an anesthetic, drowning, suffocation or a drug overdose.

**Jasper Park Lodge**  
According to an announcement made by Walter Pratt, general manager of Canadian National Hotel, the opening and closing dates for Jasper Park Lodge this year will be June 15 to September 23. Of further interest to fishermen is the fact that Nipigon Lodge will be open from June 15 to September 15.

### HUGE PROFITS

#### STARVATION WAGES

OTTAWA, Jan. 31.—Hiding behind  
tariff protection some Canadian man-  
ufacturers have made excessive pro-  
fits throughout the depression, yet  
paid the lowest wages in history to  
their employees, it was charged in the  
House of Commons today by Hon.  
Charles Stewart, former minister of  
the interior. He proposed a sweep-  
ing investigation into industrial ac-  
tivities, along the lines proposed for  
chain and departmental store buying  
practices.

"I am credibly informed," said the  
former Alberta premier, "and I am  
going to ascertain the truth of the  
matter, that in western Ontario there  
is an individual engaged in the pro-  
duction of silk stockings and silk un-  
derwear who stands to make a profit  
well over \$200,000 this year and he  
is paying the lowest wages he has  
ever paid."

From his place in the front benches  
of the Liberals, Mr. Stewart definite-  
ly broke off relations with the United  
Farmers and Progressives in the cor-  
ner of the House. The Progressives  
need not fear "contamination" from  
the Liberals. There would be no  
such intimate relations.

He advised the Progressives, if they  
imagined their policies were success-  
ful and popular, to examine the re-  
cord of the U.P.A. government in  
Alberta. "If you (the Progressives)  
are proud of that record, if you think  
they have been economical, if you  
think they have not put a burden on  
the taxpayers of Alberta too grievous  
to be borne, then I will take back ev-  
erything I have said."

#### HOLD-UP MEN GET

THREE YEARS, LASHES  
Pleading guilty to a charge of rob-  
bery with violence, four hold up men,  
Noel Hagenson, Francis Wilson and  
Albert Whalen, all of Calgary, and  
Guy Hills, of Penitentiary, B.C., were  
sentenced to three years imprison-  
ment and ten lashes each, by Magis-  
trate E. H. Jones, of Lacombe, in Red  
Deer police court Monday afternoon.

The men were arrested by R.C.  
M.P. officers late Sunday afternoon  
in a stubble field near Crossfield af-  
ter they had held up an robbed a gar-  
age and service station attendant at  
Penhold, Alberta.

In addition to finding in the car a  
number of articles which had been  
stolen from the Penhold garage, the  
police also discovered that the car  
had been stolen in Edmonton several

days before the robbery on Sunday.  
When the quartette was arraigned  
before Magistrate Jones at Red Deer,  
at 4:30 o'clock Monday afternoon,  
they entered a plea of not guilty, and  
at the request of the police, the men  
were remanded for a week.

Half an hour after they had been  
returned to their cells, the men called  
a police officer, and said that they  
wished to change their plea to that of  
guilty.

Court was again convened, and af-  
ter the men had entered a plea of  
guilty, Magistrate Jones referred to  
the serious nature of the crime. He  
then sentenced them.

#### TO INVESTIGATE

##### CHAIN STORES

OTTAWA, Jan. 24.—"Glorious ab-  
uses" cited by Hon. H. H. Stevens,  
minister of trade and commerce, at  
the annual convention of shoe manu-  
facturers of Canada in Toronto re-  
cently, will probably be aired in the  
House of Commons.

In Toronto the minister struck out  
at sweat shops and the crushing out  
of small competitors by mass buying  
and nationwide organizations.

The speech of the minister, it is  
known, has resulted in a flood of  
letters and communications which en-  
dorse the statements he made and  
support the attitude he took. These  
communications are coming into the  
department of trade and commerce  
daily.

That the matter will not be allowed  
to rest, has now been intimated by J.  
S. Woodsworth, leader of the Labor  
group in the House of Commons and  
president of the Co-operative Com-  
monwealth Federation. Mr. Wood-  
sworth stated today he proposes to ask  
the government what it intends doing  
in respect to those abuses which Mr.  
Stevens referred to. It is probable  
that the Labor leader will bring the  
matter to the attention of the govern-  
ment early in the session, possibly  
during the debate on the address.

Whether or not this will be follow-  
ed up with a request for further in-  
vestigations has not been stated.

#### STRATOSPHERE BALLOON

##### CRASHES, THREE KILLED

Moscow, Jan. 31.—All three mem-  
bers of the crew of the Soviet strato-  
sphere balloon "Onoavjakhim" were  
killed between 3:30 p.m. and 5:00  
p.m. Tuesday, several hundred kilo-  
meters southeast of Moscow, near  
the village of Potiskoyestrog.  
The balloon bag broke away from

the gondola as it hit the ground in a  
hard landing. The force of the con-  
cussion killed the three occupants  
of the gondola and destroyed all the  
scientific instruments aboard.

#### EDMONTON MAN

## SENATOR LITTLE CHARGED WITH THEFT

London, Ont., Jan. 30.—True bills naming seven charges involving theft, conspiracy and fraud were returned by the winter assize grand jury on Tuesday against Senator E. S. Little and Arthur T. Little, of Winnipeg. The last two named are brothers of the Liberal Senator.

The charges follow the collapse of a large wholesale dry goods firm of Robinson, Little and Company three years ago.

Special Crown Attorney Norman Sommerville, K.C., announced warrants for arrest of all three would be issued. Senator Little and his two brothers would appear before Mr. Justice Patrick Kerwin in supreme Court here Thursday.

During the hockey game last Saturday night, some sneak thieves entered the Stettin hockey room at the rink and rifled the pockets of the Stettin players, who were on the ice. This is a deplorable incident and if apprehended, those responsible for the thievery should be severely punished. It is not only a reflection on the miscreants who committed the crime, but a reflection on the town as well. A sharp watch should be kept in future and if anyone is caught an example should be made.

The finding of the grand jury charged the three brothers with conspiracy to defraud shareholders of the Robinson, Little Company; the three are also charged with conspiring "to steal the property" of the company.

## ENGINEER, FIREMAN PERISH

Edmonton, Jan. 30.—Engineer and fireman were killed late Monday when the locomotive of a C.N.R. mixed train left the rails, plowed through a field, and turned over on its side south of Athabasca. A broken rail was blamed for the accident.

The dead are: William Lampshire, 48, engineer, and James P. Proulx, 45, fireman, both of Edmonton.

The accident occurred near Meadow, 10 miles from Athabasca. Two freight cars left the rails, but remained on the roadbed and the one passenger car on the train, riding on a crotch at the rear was not hurt.

## OLDS WINS 5-2 OVER LOCALS

CLDS, Jan. 30.—Playing the game in four 15-minute periods instead of the usual three, Olds defeated Lacombe 5-3 here Tuesday night in a Big Four Hockey League match. Four of the seven goals were scored in the last period.

Izudan and McCaugherty scored the goals for Lacombe.

## THUGS TAKE \$10,000 IN MONTREAL HOLD-UP

Montreal, Jan. 31.—Three men, all about 45 years old and weighing 175 pounds, were objects of a man-hunt here last night following a well planned holdup of the St. Zotique street branch of the Royal Bank of Canada here which netted them \$10,000.

The manager and cashier and three customers were herded into the vault. The bandits then snatched up all the bills from the cashiers desk and escaped. Five or 10 minutes later those in the vault managed to overpower the lock from the inside, open the heavy door and give the alarm.

## SNEAK THIEVES BUSY

During the hockey game last Saturday night, some sneak thieves entered the Stettin hockey room at the rink and rifled the pockets of the Stettin players, who were on the ice.

This is a deplorable incident and if apprehended, those responsible for the thievery should be severely punished. It is not only a reflection on the miscreants who committed the crime, but a reflection on the town as well. A sharp watch should be kept in future and if anyone is caught an example should be made.

## THE CARNIVAL

Remember the Carnival at the rink on Wednesday, February 7th (next Wednesday). Good prizes for every kind of ice sport and prizes for fancy and comic costumes for old and young. Get your costumes ready and don't miss this Grand Carnival.

## IN THE MATTER OF THE ESTATE OF HERBERT THORP, late of the Village of Bentley, in the Province of Alberta, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named HERBERT THORP who died on or about the 29th day of December, A.D. 1932, are required to file with the undersigned as Solicitor for the Executor of the said deceased by the 8th day of March, A.D. 1934 a full statement of their claims and of any securities held by them and that after that date the Executor will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed or which have been brought to the knowledge of their Solicitors.

DATED this 23rd day of January, A.D. 1933.  
EDWIN H. JONES, K.C.,  
Lacombe, Alberta,  
Solicitor for the said Executor.

IN THE MATTER OF THE ESTATE OF EDWIN ARCHIBALD LOCKERBY, late of the Hamlet of Chiswell, in the Province of Alberta, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named EDWIN ARCHIBALD LOCKERBY, who died on or about the 22nd day of October, A.D. 1933, are required to file with the undersigned as Solicitor for the Administrator of the said deceased by the 8th day of March, A.D. 1934 a full statement of their claims and of any securities held by them and that after that date the Administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed or which have been brought to the knowledge of their Solicitors.

DATED this 23rd day of January, A.D. 1934.  
EDWIN H. JONES, K.C.,  
Lacombe, Alberta,  
Solicitor for the said Administrator.

## Experiments Being Carried Out By United States Railways With Aerodynamic Trains

The experiments being conducted by United States railways with aerodynamic types of trains which will reach over the rails between New York and Los Angeles in 50 hours at an average speed of 80 miles an hour are being carefully watched by Canadian railway officials.

While opinion as to the feasibility of the new trains operating in Canada are divided, Canadian motive engineers are eagerly awaiting the results of the experiments although they point out that any development in this direction will have to wait for better times.

From the Canadian viewpoint a serious problem is presented in the all-metal construction of the trains which motive men say, will likely prove to be a conductor of the bitter Canadian cold. Frost works its way through steel structures and unless backed by heavy insulation the all-steel cars would be impractical in Canada where steel, heavy insulation and wood are utilized in the making of railway coaches.

Engineers viewing the experiments in a favorable light point out the new type of train will permit lower operating costs in addition to increased speed, comfort and luxury.

On the other hand some motive men take the view the large increase in speed will mean a decrease in safety. At present some Canadian trains average between 30 and 55 miles an hour but to achieve this speed they have to travel at 80 miles an hour on occasions. The new trains to maintain an average of 85 miles an hour would have to touch 110 miles per hour or more—a heavy burden on the present type of roadbed which is expected to be used.

The roadbed is one of the contentious points of the contrasting points of view. Opponents say the present roadbed would not be able to stand the strain of the high speed and a special rigid type would be needed—the cost of replacement being tremendous.

To give weight to their argument they cite the case of the "Flying Hamburger" which developed a speed of 100 miles an hour in Germany. The company which introduced the stream-line car is now completing a special track.

High costs in initial building of the trains through the use of duralumin and stainless steel in addition to the holding up of other trains to permit the "comet" train to clear track are other reasons against the new trains. Low operating costs, possible fuel reduction in materials and passenger appeal might possibly offset these facts.

However, some of the engineers are of the opinion that if special roadbeds were constructed and sufficient safety achieved, there was no reason why the experiments should not be successful.

In any event they declare if the public desires the new types of trains, the near future will see them speeding across continents in two days and two nights.

### Flivver Planes

Low Price Aeroplanes To Be Turned Out On Mass Production Basis

The \$700 flivver aeroplane—long a dream of the aviation world—has zoomed close to the realm of actuality.

Twenty-two leading manufacturers of planes, after a long discussion at the Aeronautical Chamber of Commerce, New York, announced they had decided to support a proposal of Eugene L. Vidal, director of aeronautics of the Department of Commerce, to develop such a low-priced plane, to be turned out on a mass production basis.

**Rose Bush Surprises Owner**

Mrs. Wilson Minshall, of Georgetown, British Guiana, thinks her rose-bush has some explaining to do. For the year previous the rosebush faithfully produced an abundant crop of white roses. One morning Mrs. Minshall was surprised to find a single red rose isolated in the nest of white flowers. The original tree from which Mrs. Minshall's bush was "slipped" still bears the white roses.

**A Substantial Gift**

Each of the five sons of J. L. Jones, of Oklahoma City, founder of a retail grocery chain, got a store for a Christmas present. The sons, Roy, Ralph, Troy, Lloyd and George, now are managing the stores. The elder Jones who says he is confident business is on the upturn, is retiring.

**A Valuable Manuscript**

Francis Scott Key's original manuscript of "The Star Spangled Banner" was sold at public auction recently for \$24,000. The buyer was Dr. A. S. W. Rosenbach, noted bibliophile. The manuscript is on a sheet of ordinary notepaper, the ink brown with age.

A reputed shortage in oak trees may be the result of their use for the manufacture of antique furniture.

### Praise For Modern Girl

Lord Dunsannon Believes They Are More Prepared To Meet Demands Of Our Day

Modern girls receive praise from Lord Dunsannon, Earl of Epsom, Governor-General, was visited by Montreal with the Ottawa Drama League playing the part of Romeo in their production of "Romeo and Juliet," when he was asked in an interview if he did not think the fainting lady of the crinoline more fascinating.

The interviewer, "Molly," of the Montreal Herald, quotes him as saying, "I like the new fashioned girl far better—because they are smarter—and far more prepared to meet the demands of our day."

"His young lordship said he likes Canada and does not come out merely because his parents happen to be here, I could stay at Cambridge if I really didn't want to come. I love Canada and I hope to visit here a lot later on. Of course I am going to have my coming-of-age party in Ottawa this summer, and that is really the best thing I have to look forward to."

He said the stage was only his hobby. He did not wish to make it his career. He was quite definite about becoming a politician though he said he was going in for business first.

### Good Sugar Beet Yield

Satisfactory Crop Grown On Northern Alberta Irrigated Land

Lethbridge Northern Irrigation District leads all other Southern Alberta sections in 1933 sugar beet yields. Indications are that this district will show an average yield of better than 11 tons per acre. Turin so far stands at the top with almost 12 tons, while Iron Springs is second with 11.35 tons. These tonnages are far ahead of the Taber-Barnwell district which, up to this year, has always held the high yield record.

### A Distinguished Canadian

Added Much To Knowledge Of Irrigation Practices On This Continent

The recent death of Dr. Samuel Fortier, has directed attention anew to his long and unique service to American agriculture, says the U.S. Experiment Station Record. A Canadian by birth and education, he was engaged for over forty years in engineering work in the United States closely associated with farm irrigation practice. He was an engineer of recognized standing, and as early as 1896 had been awarded the Gzowski medal of the Canadian Society of Civil Engineers for a paper on storage reservoirs. He had been connected with three of the agricultural colleges of the far West—Utah, Montana, and California—was director of the Montana Experiment Station from 1900 to 1908, and for twenty years was identified with the irrigation work of the United States Federal Department of Agriculture. Most of his time was spent in administrative charge of studies in the relatively new field of irrigation investigations, and in this capacity he influenced materially irrigation practice both in the United States and Canada, and abroad.

### Buffalo Steaks

To Be Supplied To Men At Unemployment Camps

Mr. and Mrs. John Citizen won't have buffalo steaks this year, but residents of the unemployed camps will and the government will thereby save a tidy sum on food bills.

Meat received from the 1933 slaughter of buffalo in Wainwright Park will be furnished to unemployed camps throughout the Dominion and none will be placed on retail sales as in former years.

One carload is already at the Dunlop camp and every so often the men will have buffalo steaks, steers or roasts. Smaller quantities of the meat are being provided other camps in the province—Leader-Post, Regina.

### Champion Woman Wrestler

Cannot Find Anyone To Challenge Her Supremacy

Miss Enline is travelling all over Turkey looking for someone who will wrestle with her. She is the champion wrestler of Turkey, and weighs nearly 400 lbs. For the last year no one has dared to challenge her supremacy. She is, therefore, forced to earn her living by displays of strength. She will support a sack of wheat weighing fifty pounds on her body, with four men standing on the sack; or she will hold an iron bar between her teeth and invite two men to bend it.

### Drink Less Tea

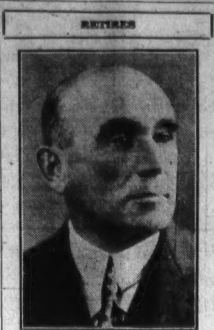

Five years ago Australia was the greatest tea-drinking country in the world. Australians then consumed 8½ pounds a head, each year. But sip by sip, cup by cup, England overhauled Australia, and now consumes 9.9 a head. New Zealand has shot into second place with 8.3 pounds a head, leaving Australia third with 6.76 pounds a head.

### A Reasonable Protest

Turkish strap-hangers are protesting against a harem costume surviving in modern trolley cars. The four front seats, which were curtailed off in harem times, still are reserved for women and the tired trolley-riders have complained against this favoritism to the municipal council.

**Affable Passenger:** "Your husband's a poor sailor, I believe?"

**Impassioned Ditty:** "Indeed he's not—he's a rich produce merchant."

William J. Egan, Deputy Minister of Immigration at Ottawa, who has tendered his resignation after twenty-three years in the public service.

### Hedges And Evaporation

Interesting Results Proved Through Observations At Swift Current

A caragana hedge proved effective in checking evaporation, but its influence did not extend beyond a distance of 75 feet, according to observations made at the Dominion Experimental Station, Swift Current, Sask., during the past season.

Weather factors which cause evaporation of water from the soil also stimulates the dissipation of water by crops. Checking evaporation of water from the soil, therefore, means more water for crops and checking excessive evaporation from plants, usually termed transpiration, will accomplish the same objective. Experiments have shown that 27 per cent more water was used in the protection of each bushel of wheat from land where evaporation of water was allowed to proceed over than from land where evaporation was checked.

Earlier observation showed that a caragana hedge, was effective as a windbreak to a distance of 50 feet for each foot in height of the hedge. Wind is the most potent factor in causing evaporation on the prairie, but is very nifty in its direction. In the Swift Current observations on evaporation, the hedge is five and a half feet high and lies in a north and south direction. At times the influence of the hedge in checking evaporation was unmistakable, but on other occasions, according to change in wind direction, it proved quite ineffective.

### Bricks In Color

Multi-Colored Rough Texture Bricks Coming Into Use

Recent developments tend towards the use of multi-colored rough texture bricks, with coloring that is more pleasing to the eye and gives the appearance of charming designs without the newness that was so obvious in the method of construction. Such colors as Autumn Tints, Cherry Red, Brindled, Dark Strawberry, Orange, Silver Grey and Golden Grey, will be found among the new bricks. The same applies to tiles, where at least ten different colors are now available.

### Silver Currency

A proposal that silver as well as gold should be used as a basis for Canadian currency will be discussed at the coming session of parliament. The question will be introduced in the House of Commons by Thomas Reid (Lib., New Westminster), who has filed a resolution on the remonetization of silver.

French suffragettes have threatened to refuse to pay taxes unless given the vote.

### One Of Strangest Lakes

Possible To Walk On Body Of Pitch In Trinidad

Lake La Brea, in Trinidad, is one of the strangest lakes in the world. In legend there are lakes with no beds, sacred lakes into which rivers flow without mixing waters, and lakes that vanish in a night and reappear as quickly, but Lake La Brea is remarkable in that it is possible to walk upon it.

It is a lake of pitch occupying the crater of an old volcano. Vast quantities of bitumen are exported every year for use in road-making, yet the lake shows no signs of drying up. Fresh deposits are continually forming on the bed of the lake at a depth of about 130 feet.

It is considered to be one of the hottest places in the world, yet the bitumen forming the lake is sufficiently hard to allow of driving a horse and cart across it.

The lake has an area of some hundred acres, and is estimated to contain more than nine million tons of bitumen.

### Seed Wheat For Russia

Sixteen Thousand Bushels Of Garnet Wheat Goes To Siberia

Sixteen thousand bushels of seed wheat, chiefly Garnet, will leave Saskatchewan for Siberia, bought by the Soviet government for the districts needing an early wheat, according to information received from Neil Stewart, president of the Saskatchewan Registered Seed Growers' Association. Farmers selling the seed received a satisfactory premium over commercial prices.

Mr. Stewart said the association could have handled a larger order had field inspected seed been available.

Grain which is now stored in the Registered Seed elevator at Moose Jaw has been cleaned there and will go for February delivery at New York.

Some of the wheat was grown in Alberta.

### Retaining Winter Moisture

Wheat Yield On Such Land Shows Big Increase

The Dominion Experimental Station at Swift Current has been experimenting with yields of wheat on land where winter moisture has been prevented from running off, and has found an increase of 42 per cent in some cases where the water was retained, compared with similarly treated land lying the same, and in the same state of cultivation where the water was allowed to run off.

### A Real Family Job

Loosely Row sub-station near Princess Risborough, England, has been in charge of the same family for 93 years. The sub-postmaster has a license, granted in 1840, "to vend and deal in stamps in pursuance of an act passed in the fourth year of the reign of his late Majesty King William the Fourth, instituted an act to prevent the selling and uttering of forged stamps, and to allow a drawback on the exportation of gold and silver plate manufactured in Ireland."

### Prefers Human Beings

A novel case of a lion which shuns the company of other lions, but loves to be around human beings, is reported by zoo attendants at Portland, Oregon. Although as large as the female, the big male lion cringes and cowers when the females are put in the same cage with him. He drops his barbarousness and becomes the masterful king of the jungles when his keeper comes in the cage.

A common pigweed plant may yield as many as 117,000 seeds.

## Scheme For Furtherance Of World Peace Is Advanced By A Toronto Resident

### A Chinese Gentleman

Late Dr. Wu Was Highly Educated And Had Many Gifts

The late C. C. Wu, onetime Chinese Minister to the United States, was a diplomat as plausible as he was engaging. The son of Wu Tingfang, Dr. Wu was educated in this country and in England and added to the polish of the traditional Chinese gentleman a thorough background of Western culture and an American sense of humor. His enemies in China were many—as were his friends in this country and England. In Canton they considered him "unreliable." Here they had no need to question his reliability and so were pleased with his bland humor and his smiling amiability. A master of the most polished English, he gave to his expressions a twist that made them convincing in the face of facts to the contrary.

Mr. Wu's perfect English was matched by French so faultless that on one occasion a French diplomat arguing with him at an international conference left the meeting in indignation with the complaint that Mr. Wu's knowledge of French was "too perfect." This capacity to make his superior mastery of a subject felt by others brought him enemies at the same time that it satisfied his sense of the ridiculous. His many gifts were too much squandered in the devious intricacies of Chinese national politics to make it possible for his country to make the most of them. But he has left, among those Occidentals who knew him, the impression of a man whose wit and charm were an achievement in themselves and who united in his person the modern and the medieval.—New York Herald Tribune.

It is intended by the author to have the world translated into various languages and send prints to their respective countries. Already the world has been placed on ten different prints, English covering the British Empire and the United States, German, Russian, Greek, French, Italian, Chinese, Hebrew and Esperanto, the international language.

When the proposal has become concrete, it is intended by the designer to have the peace flag submitted to the League of Nations for official recognition, and it has been stated the League of Nations dignity in Canada is willing to consider the scheme when it is placed in their hands for discussion before submission to Geneva.

However Mr. Dyer does not believe his scheme has advanced to the stage for such action, and is endeavouring to have the world peace flag in as many languages as possible before taking a step in that direction.

The finale of the scheme, after it has gained recognition, is to place the flag in the school rooms of the world as the meaning of "peace" may be impressed into the minds of future generations. Accompanying the flag is a five verse song, termed "The Children's Song of Peace."

When the scheme would gain maturity, Mr. Dyer has not stated. But he believes the next few months would see the proposal advanced much further.

### Proving Huge Success

Speaking Clock In Paris Brings In Huge Revenue

The recently installed "speaking clock" of the Paris telephone system is proving a huge success, the Ministry of Posts has announced. Every day it tells the time to an average of eleven thousand inquirers, incidentally bringing in a revenue of four million francs yearly, half of which goes to the State.

This robot clock can tell the time to thirty persons simultaneously. On Sundays and holidays the average drops to 6,000 an hour. The peak hour is around 8 in the morning, when hundreds of workers call for the exact time.

The mechanism of this clock is highly complicated, though for the subscriber it is a simple operation of dialing "Odeon 84-00," states the New York Times Correspondent. Three strips of film, equipped with magnets, make the clock work for minutes and seconds, are used. The strips are wound about a drum, which is driven by an electric motor controlled by a pendulum clock. A light, falling on the paper-wound drum, is reflected to a photoelectric cell which converts the varying bright and dark lines into electric impulses. The cell is connected with amplifiers and three loudspeakers, one of which announces the hour, another the minute and the third the second, always in the proper order.

When no one is calling the clock does not "talk." Everything is turned off until a telephone call comes when the mechanism starts instantly to work.

### Language Of The Bees

Insects Employ Kind Of Deaf And Dumb Alphabet

Bees have a language of their own, according to Mrs. L. Illingworth, of Hertfordshire, England. She told the Beeskeepers' Convention at Cheltenham that the buzzers employed a kind of deaf and dumb alphabet. A bee that found an abundant source of honey returned to the hive, and by dancing to his brothers and sisters informed the rest of the colony of his discovery. If they failed to follow him, he opened a scent gland on his back and walked the perfume so, that they might follow him.

### Interest On Debenture

A reduction of interest charges paid debenture holders will be sought by the city of Calgary, and other western cities will be urged to join such a movement. At a meeting of the city council this action was urged, and it was advocated Calgary call a convention of municipalities to plan a campaign for debenture interest reduction.

Reed canary grass which is found growing wild in many places from coast to coast in the Dominion is a valuable grass to grow on land which becomes flooded for a time each season.

A warm bathing beach in Poland was transformed into a winter scene on day when carbon dioxide shot up from an oil well and descended in the form of snow.

### A New Health Drink

Turnip Juice Ranks Higher Than Orange Or Tomato

With many columns being filled about drinks of one kind and another as the United States starts to drink legally again there is always something interesting about a new drink. This one is turnip juice. We cannot recall having seen it served anywhere, or offered for sale but no less a person than Dr. E. W. McHenry, of the School of Hygiene and Communicable Laboratories, is now advertising it, saying that ten cents worth of turnip juice contains as much Vitamin "C" as 50 cents worth of lemon, orange or tomato juice. Where he got his p-cess is of course beside the point for what he was trying to convey in his address to the Canadian Public Health Association was that turnip juice was as effective as other juices costing five times as much. For that reason the announcement takes on an added significance at this time when many people have to take short cuts to health as they see their food is concerned. It is likely that it won't be long before some enterprising firm will have turnip juice on the market if it can be prepared and canned in a palatable way. In the meantime there may be ways of preparing it in too home that would be satisfactory. We are told that Vitamin "C" is essential to health and particularly to health of growing children so that if it can be secured from the juice of so common a vegetable as a turnip it is a fact well worth knowing.

### Appeals To King George

Private Wanted Help To Get Out Of Army

Private Sam Lee, of the 2nd Battalion of the Northamptonshire Regiment was troubled. The army did not agree with him and he was anxious to get out of it, but he did not know what steps to take. He did not relish the obvious method of approaching his commanding officer.

Then a bright idea dawned on him. He would write to the King, asking him to grant his discharge on what the army calls compassionate grounds. He spent a considerable time composing the letter. He consulted a book on etiquette and found that private petitions. For several days he waited hopefully; then one morning the C.O. sent for him.

It wasn't long till Private Sam Lee was on the high seas, but he no longer belonged to the 2nd Battalion of the Northamptonshire Regiment. He was on his way to join the 1st Battalion in India.

His letter to the King reached its destination, but His Majesty necessarily had to refer it to Private Lee's C.O. And the C.O., after politely but firmly pointing out that private petitions are not allowed to be sent to the King, gave him some good advice, which, on reflection, he thankfully accepted.

A cheese, 10 feet across and encased in wood, from Tilsit, East Prussia, was rolled through the streets in a recent "Buy German" parade in Berlin.

India hopes to develop an "inter-India commercial air service."

### SAVAN'S DEATH RECALLS KING TUT'S CURSE

CARNARVON AT ENTRANCE TO TUTANKHAMUN'S TOMB

The mysterious death of Dr. Arthur E. P. Weigall, noted author and Egyptologist in London, recalls the series of misfortunes that overtook many who were connected with the expedition which opened the tomb of King Tutankhamen, at Luxor, Egypt, more than a decade ago. Superstitious Britons say the savant's death is proof that the curse, placed by the ancient Pharaoh on defilers of his tomb, is still working. While excavation work on the tomb was still in progress, Lord Carnarvon, financial backer of the expedition, died mysteriously. Soon after Howard Carter, leader of the expedition, was stricken, but recovered. The Hon. Reginald Wendell, Carnarvon's brother-in-law, died at the age of 29, and Lady Carnarvon was afflicted with a mysterious malady but recovered. Colonel Audrey Herbert, Carnarvon's half-brother, died, and many others whose connection with the noblemen was remote, also suffered through the strange spell.

### MOTHER CHURCH

#### DIRECTOR RESIGNS

Mrs. Annie M. Knott, C.S.D., for fifteen years a member of The Christian Science Board of Directors of The Mother Church in Boston, Massachusetts, has resigned. A devoted and beloved worker in the Cause of Christian Science, she has been prominent at its headquarters during the past thirty years, first as associate editor of its periodicals, and, thereafter, as a Director of the Church.

Mrs. Melvia E. Ritchie, C.S.B., of Swickley, Pennsylvania, succeeds Mrs. Knott on the Board of Directors. As representative of The Christian Science Publishing Society, Mrs. Ritchie travelled extensively, in the course of which she visited the Branch Churches in Alberta in 1923 and more widely extending her service on the Christian Science Board of Lectureship she lectured here in 1929.

Mrs. Knott was the first woman Director since Mrs. Eddy organized the First Church of Christ, Scientist, in 1892, and this change will be noted throughout its world-wide organization wherein these workers are well known.

### AT THE AVALON

#### "Three-Cornered Moon"

"Three-Cornered Moon," the sensational comedy hit of the New York stage which kept blasé New Yorkers laughing for weeks, has been made into a Paramount picture with Claudette Colbert, Richard Arlen and Mary Boland in the starring roles.

The plot of "Three-Cornered Moon" tells all about a typical American family, idle and wealthy, which is suddenly impoverished by the depression. The cavorting of the madcap family keeps the story on a high plane of rollicking comedy.

From the flighty, widowed mother who invested the family fortune in a

piece "moral" mine because a pleasant gentleman was very enthusiastic about it, down to her youngest son, the Rimplegans of Brooklyn are the oddest assortment ever gathered under one roof. They might be your next door neighbors, but if they are you have grounds for breaking your lease.

In addition to the three stars listed above, this picture, produced by B. P. Schulberg, boasts a supporting cast including Wallace Ford, Lydia Roberti, Joan Marsh, Tom Brown, William Bakewell and Hardie Albright. It was directed by Elliott Nugent.

Show starts Thursday and Friday at 8:15; Saturday 7:30 and 9:15.

Coming: Zane Grey's "To the Last Man," Feb. 8, 9 and 10.  
"One Sunday Afternoon," Feb. 15, 16 and 17.

Lacombe Horse Sale Tuesday, Mar. 13th. Get your horses in shape.

If you want to enjoy the after-meal contentment that a proper digestion is entitled to, you should allow us to serve you. Our shop is clean and sanitary. Our goods wholesome and properly priced. Honest weights and quick deliveries—come in.

"Service" is Our Motto  
City Meat Market—Phone 80

Remember the Fun Frolic being held by the C.G.L.T. in the Church Hall on Friday, Feb. 9, from 7:30 till 10 o'clock in the evening. Be sure and come and don't forget your pennies.

### SUNNY TEA SHOPPE
